- 1 Remove the vacuum-packed foam pod from the box.

- 2 To remove the plastic packaging, locate the red dot. This indicates where the plastic is safe to cut. **Cut carefully so as not to damage the product.**

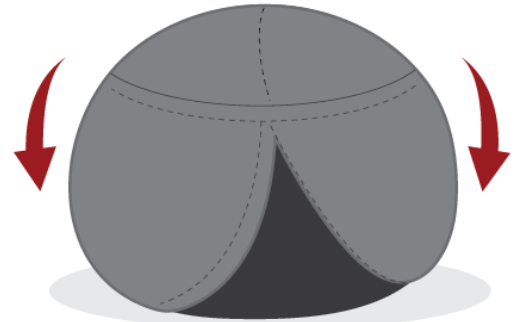

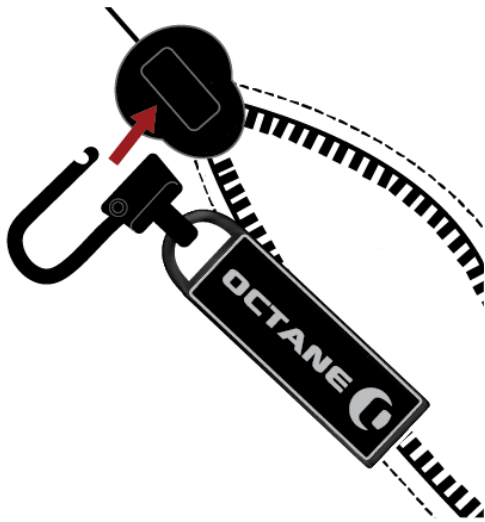

- 3 Grab the bottom and flip over a few times. This introduces air into the foam allowing it to fluff up.

- 4 Once fully fluffed, your foam pod is ready for its cover. **Please allow 24-48 hours to fully expand.**

APPLY THE COVER TO THE FOAM POD

<https://vimeo.com/821357168/9d4b0c8e1f>

- 1 Locate the zipper pulls and attach them to the two zippers on the top cover.

- 2 Pull the unzipped cover over the foam pod until it fits the shape.

- 3 Pull the two sides of the cover together as you zip downwards, rotating the foam pod as you zip.

- 4 Rotate and fluff yourself a nice seat in the foam pod and experience high performance comfort.
